HARMONY

# About Tradition Pellet

**Cavalor Tradition Pellets is a pellet for healthy horses full of vitality. Oat-free formula.**

Cavalor Tradition Pellets is a level 1 feed for horses receiving recreational to light training or sensitive horses.

## What makes Tradition Pellet unique?

No oats

Oats are a cereal that can be used as an energy source in a muesli for competition horses. It quickly releases lots of energy. This is not needed for recreational horses, or for horses who do not need high energy levels.

# Advice

## Feed as you need

The foundation of good nutrition for your horse is adequate roughage and access to fresh drinking water. Supplement this base with concentrates or a balancer depending on the individual nutritional needs of the horse. Use supplements to fine tune.

## Feeding recommendations for Cavalor Tradition Pellet

We recommend a minimum of 400 g to maximum 600 g per 100 kg body weight per day. For a 600 kg horse this means a minimum of 2,4 kg and a maximum of 3,6 kg per day. Divide the concentrate feed over several portions per day, preferably after feeding roughage.

### TIP

Not all feed scoops are the same size. Weigh the contents of your feed scoop so that you know exactly how much your horse is getting.

# Composition

Wheat middlings / Alfalfa pellet / Barley / Wheat / Wheat bran / Spelt hulls / Broken oil seeds / Sunflower seed feed / Maize steep liquor / Soya bean hulls (produced from genetically modified soya) / Beet molasses / Calcium carbonate / Sodium chloride / Soya oil / Fructo-oligosaccharides

Nutritional value	Quantity
