# About Action Mix

**Cavalor Action Mix is a sports muesli for active horses. With flaked cereals, much easier to digest than unprocessed cereals.**

Cavalor Action Mix is a level 2 feed for horses receiving regular and active training.

## What makes Action Mix unique?

**For active horses**

Feed for horses that are trained regularly and actively.

**With flaked cereals**

With flaked cereals for easy digestion. Flaked cereals are much easier to digest than unprocessed cereals.

## Advice

### Feed as you need

The foundation of good nutrition for your horse is adequate roughage and access to fresh drinking water. Supplement this base with concentrates or a balancer depending on the individual nutritional needs of the horse. Use supplements to fine tune.

### Feeding recommendations for Cavalor Action Mix

We recommend a minimum of 400 g to maximum 650 g per 100 kg body weight per day. For a 600 kg horse this means a minimum of 2.4 kg and a maximum of 3.9 kg per day. Divide the concentrate feed over several portions per day, preferably after feeding roughage.

#### TIP

Not all feed scoops are the same size. Weigh the contents of your feed scoop so that you know exactly how much your horse is getting.
