- › With the delicious smell of Eucalyptus
- › pH Neutral

500 ML

COOL CARE

About Refresh Wash

Cavalor Refresh Wash is a surprisingly refreshing shampoo. The subtle scent of Eucalyptus has an energizing effect. Ideal for a wash on a hot day or after training where your horse has sweated a lot. Cavalor Refresh Wash, like Cavalor's other shampoos, is pH neutral. It also contains provitamin B5 and glycerin. These ingredients ensure that the skin remains hydrated and gives volume and shine to the coat.

Unlike our skin, which has a natural acidity of 4.0 – 5.5, the optimal pH of the horse skin is 7.0 – 7.4. When we use low pH products such as human shampoos, moisture is absorbed from the skin resulting in dry, flaky skin. Bleaching agents have a high pH, they will absorb the natural sebum, making the skin susceptible to infections.

What makes Refresh Wash unique?

1 Fresh & Clean

Cavalor Refresh Wash has a subtle scent of Eucalyptus, a real treat after sweating!

2 pH Neutral

Unlike our skin, horse skin is pH neutral (7-7.4). Shampoos that are adapted to the skin of horses are skin-friendly and ensure that the skin remains hydrated.

3 Nourishing formula

Cavalor Refresh Wash contains panthenol (provitamin B5) and glycerin. These coat conditioners give the coat volume and shine. The coat feels soft and healthy.

Directions for use

Wet the horse's coat to remove loose hair and dirt. Use Cavalor Refresh Wash directly on the coat, or put a little in a bucket of water and use a sponge for a refreshed and clean coat. Rinse shampoo well.

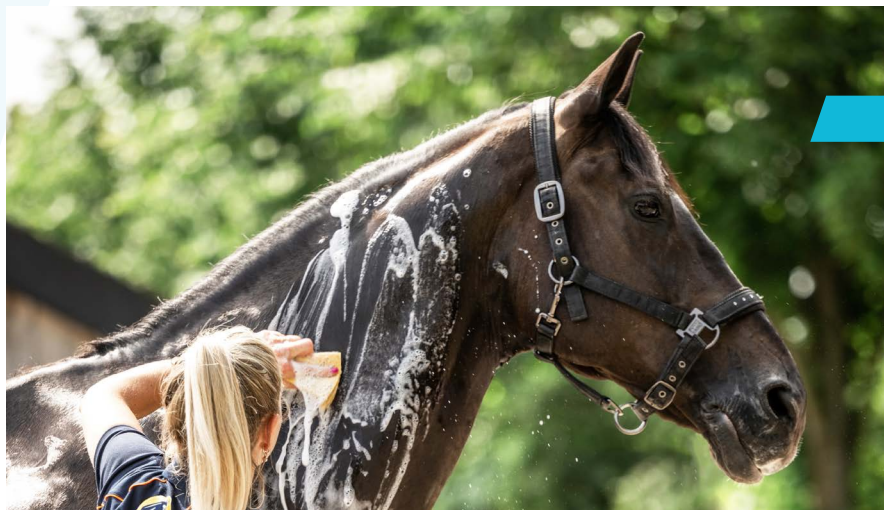

Warning: For external use only. Avoid contact with the eyes.

Composition

Sodium Laureth Sulphate / Aqua / Cocamidopropyl betaine / Glycerin / Panthenol / PEG-4 Rapeseedamide / 2-bromo-2-nitropropane-1,3-diol / Sodium Chloride / Eucalyptus radiata

Storage

Keep out of reach of children. If medical advice is needed, have product container or label at hand.

TIP!

Dried sweat can clog pores and provoke skin reactions. By washing your horse with Cavalor Refresh Wash after sweating, you can prevent old sweat from sticking in the hair. Moreover, it provides a refreshing and clean feeling. You also shower after exercising, right?
