Vitamin A (min)	22,000 IU/lb

**Daily feeding rate:** Feed a maximum of 2lbs of Cavalor® WholeGain daily to your horse in addition to your current feed ration for additional weight. Most horses do well on only 1 to 1.5lb added to their daily ration. For ponies, feed a maximum of 1lb of Cavalor® WholeGain daily. Since this is a very calorically dense feed, Cavalor® WholeGain can replace up to 2lbs of your horse's normal daily grain ration for every 1lb of Cavalor® WholeGain fed to horses that are currently at a good body condition.

**Guaranteed By:** Nutri-Pro Equine, LLC. 3529 Corporate Drive, Dalton, GA 30721
